

Discounted Cash Flow (DCF) 1 Day Standard Classroom Training

Our training programme is designed for new-to-intermediate users of ARGUS Enterprise or anyone who will be responsible for entering leases, budgets, market assumptions or valuation and yield parameters on a repetitive basis. The modules that are covered in the course include Valuation- Cash Flow, Portfolio Level Reporting and Sensitivity. Courses concentrate on practical applications of the software through interactive examples and case studies. Participants are exposed to a large cross section of the software's capabilities, fundamentals and unique nuances.
